11 Parcel Lockers

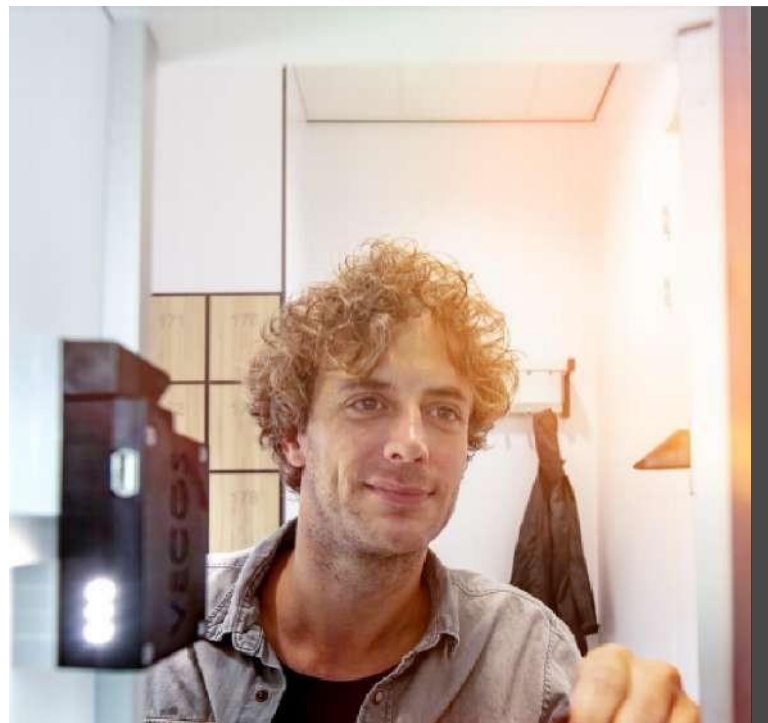

# Lock Features

---

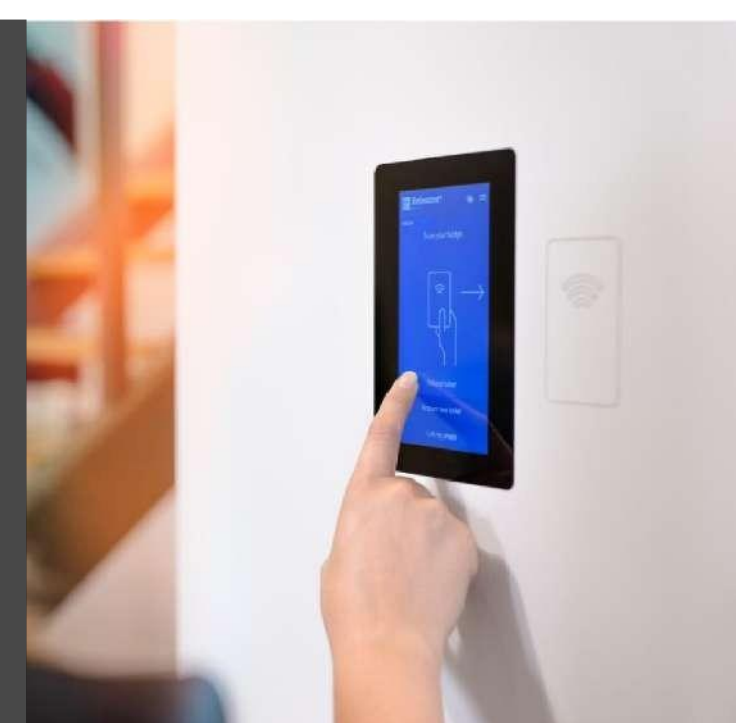

- Push to lock the door
- Complete overview of entire locker installation to zone/ floor wise to locker bank wise to particular door wise usage pattern

- Pre-book a locker
- Various locker modes like Assigned / Personal / Free Dynamic, Times, Shared

- LED for inside compartment illumination
- USB Port on each lock for mobile and tablet charging inside compartment

- Audit trail of usage for each lock
- Setting up schedule for cleaning and maintenance

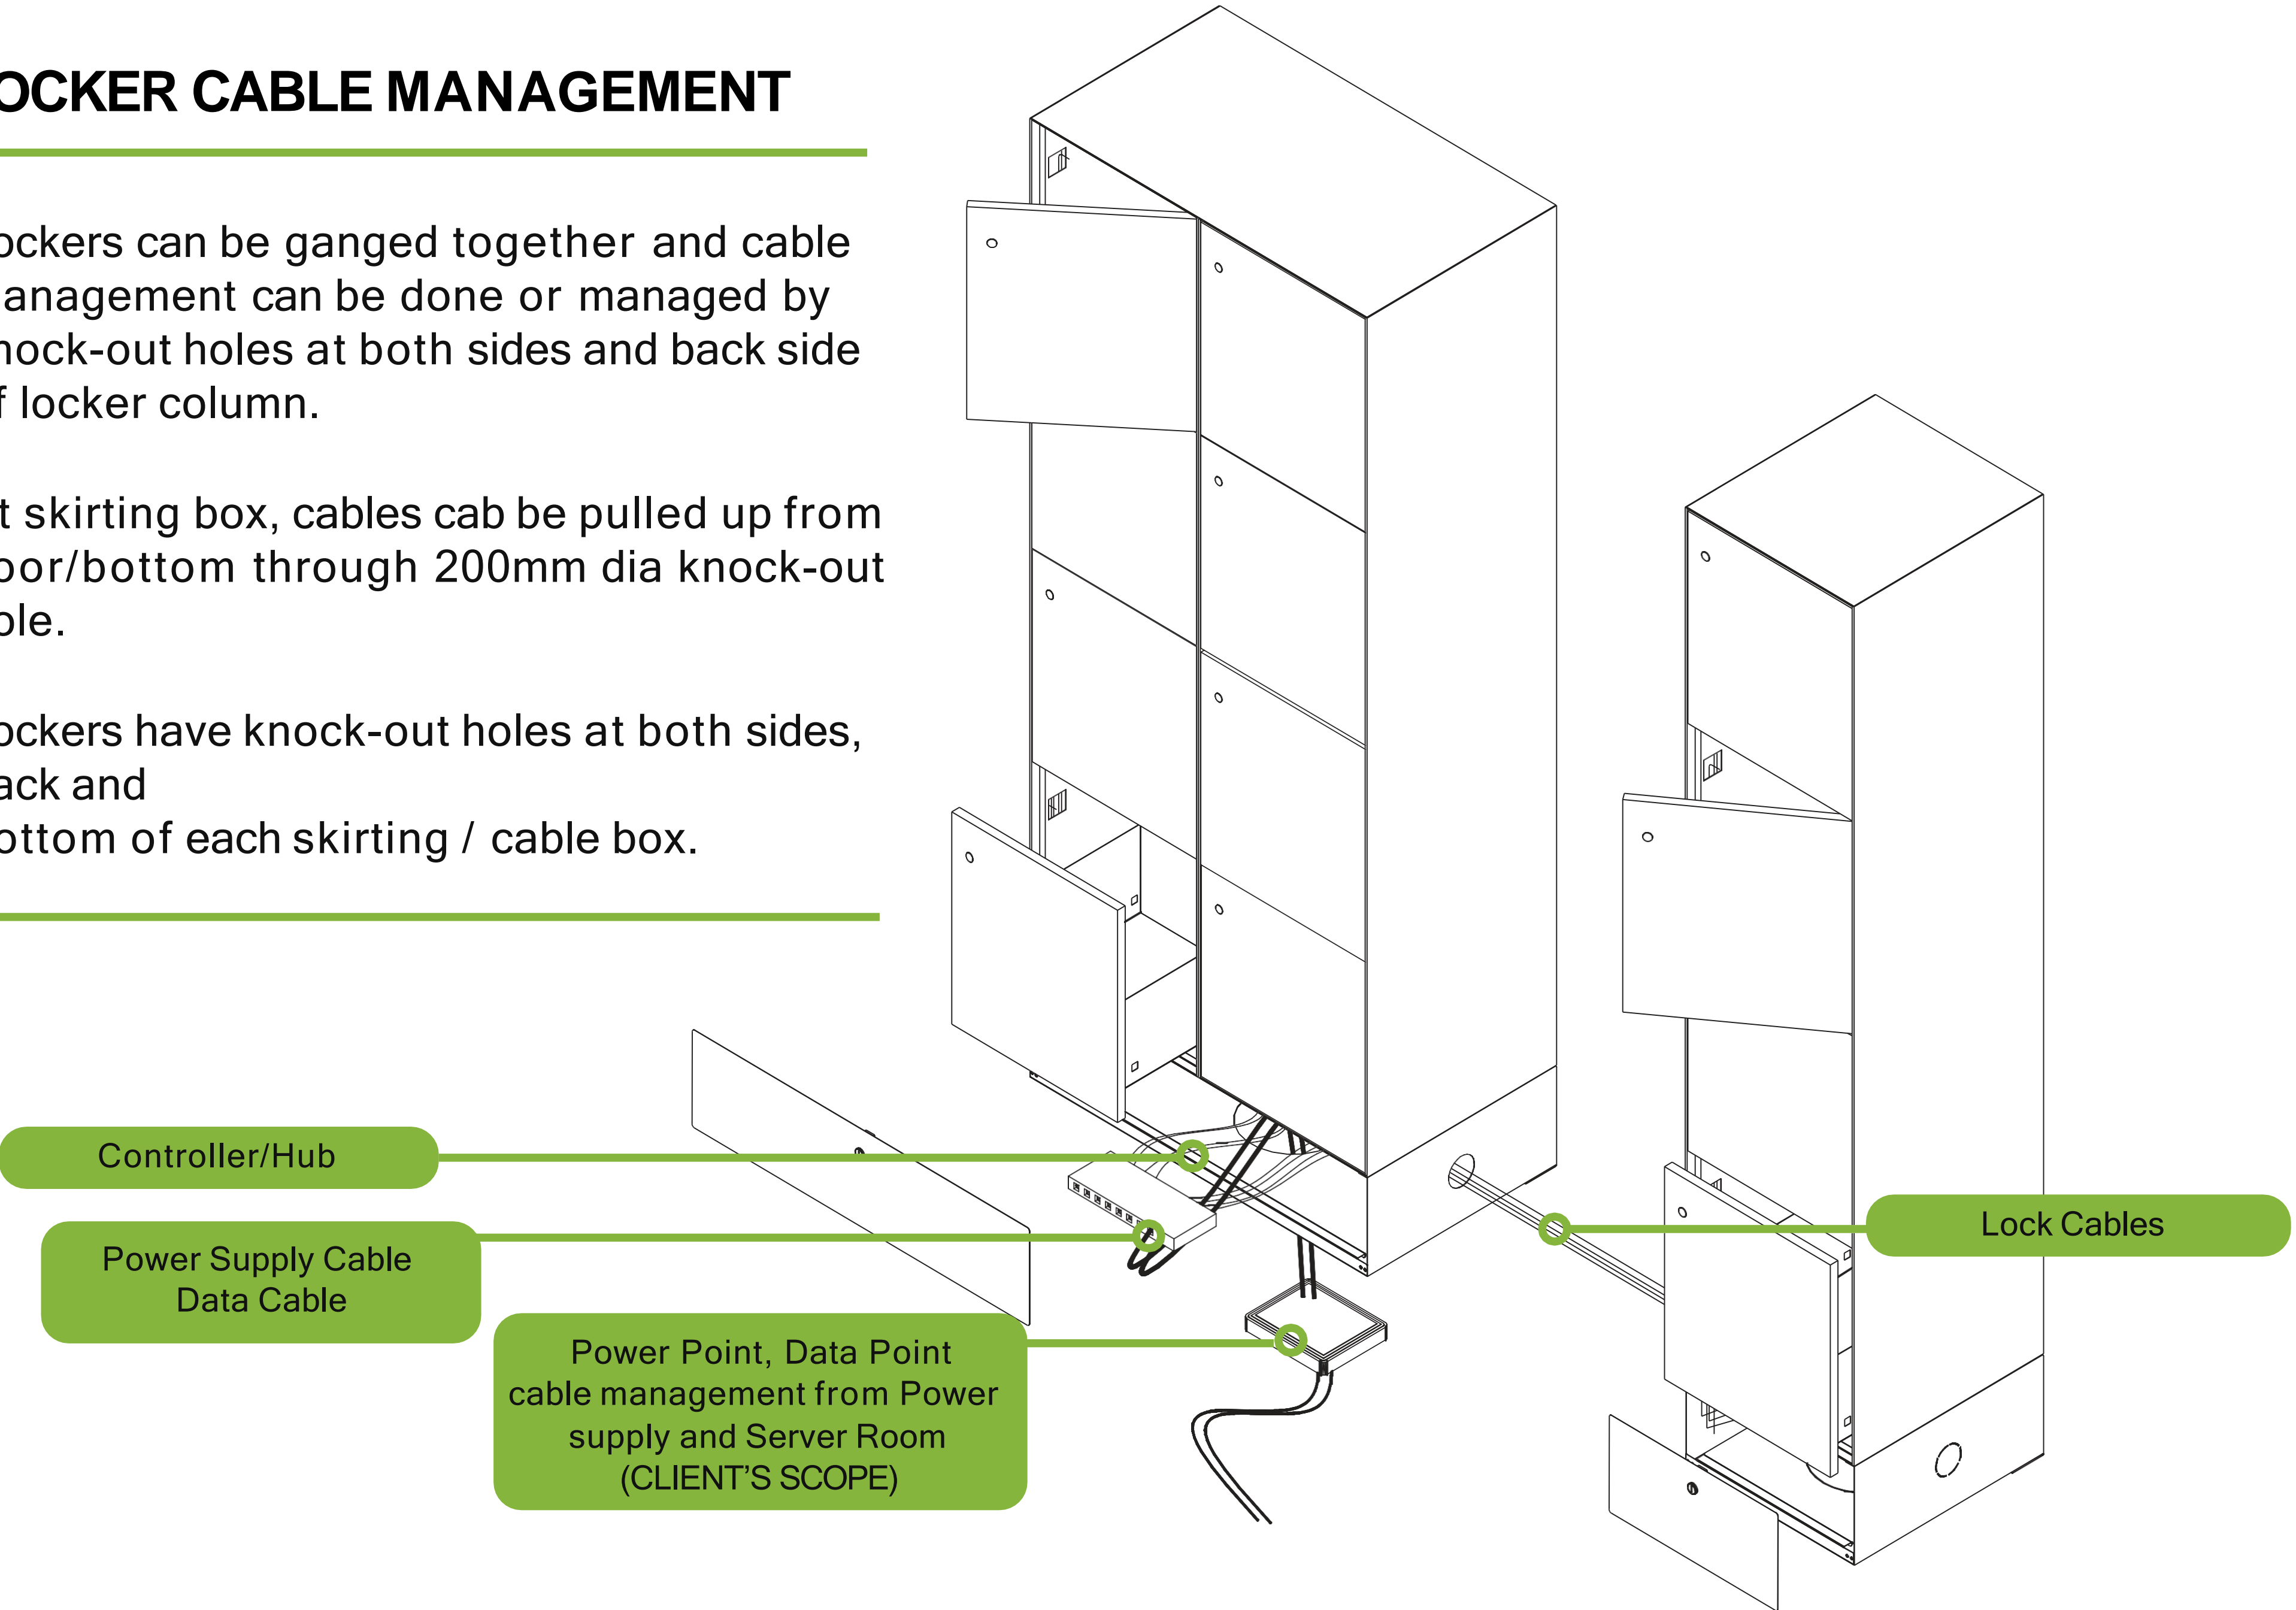

# LOCKER CABLE MANAGEMENT

Lockers can be ganged together and cable management can be done or managed by knock-out holes at both sides and back side of locker column.

At skirting box, cables can be pulled up from floor/bottom through 200mm dia knock-out hole.

Lockers have knock-out holes at both sides, back and bottom of each skirting / cable box.

## Enabling design freedom

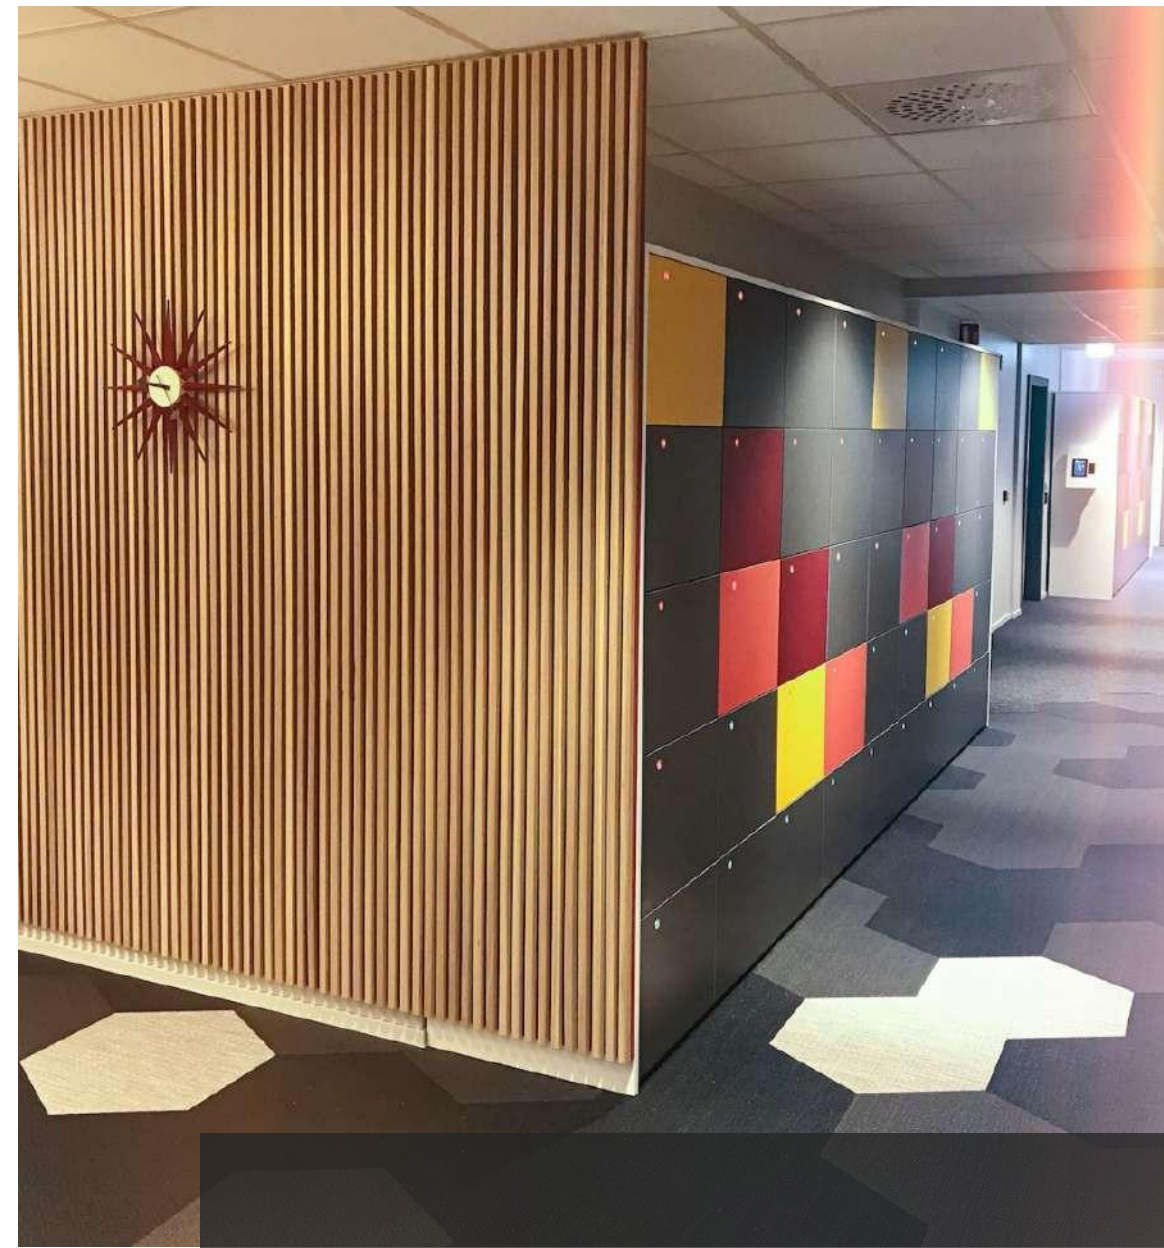

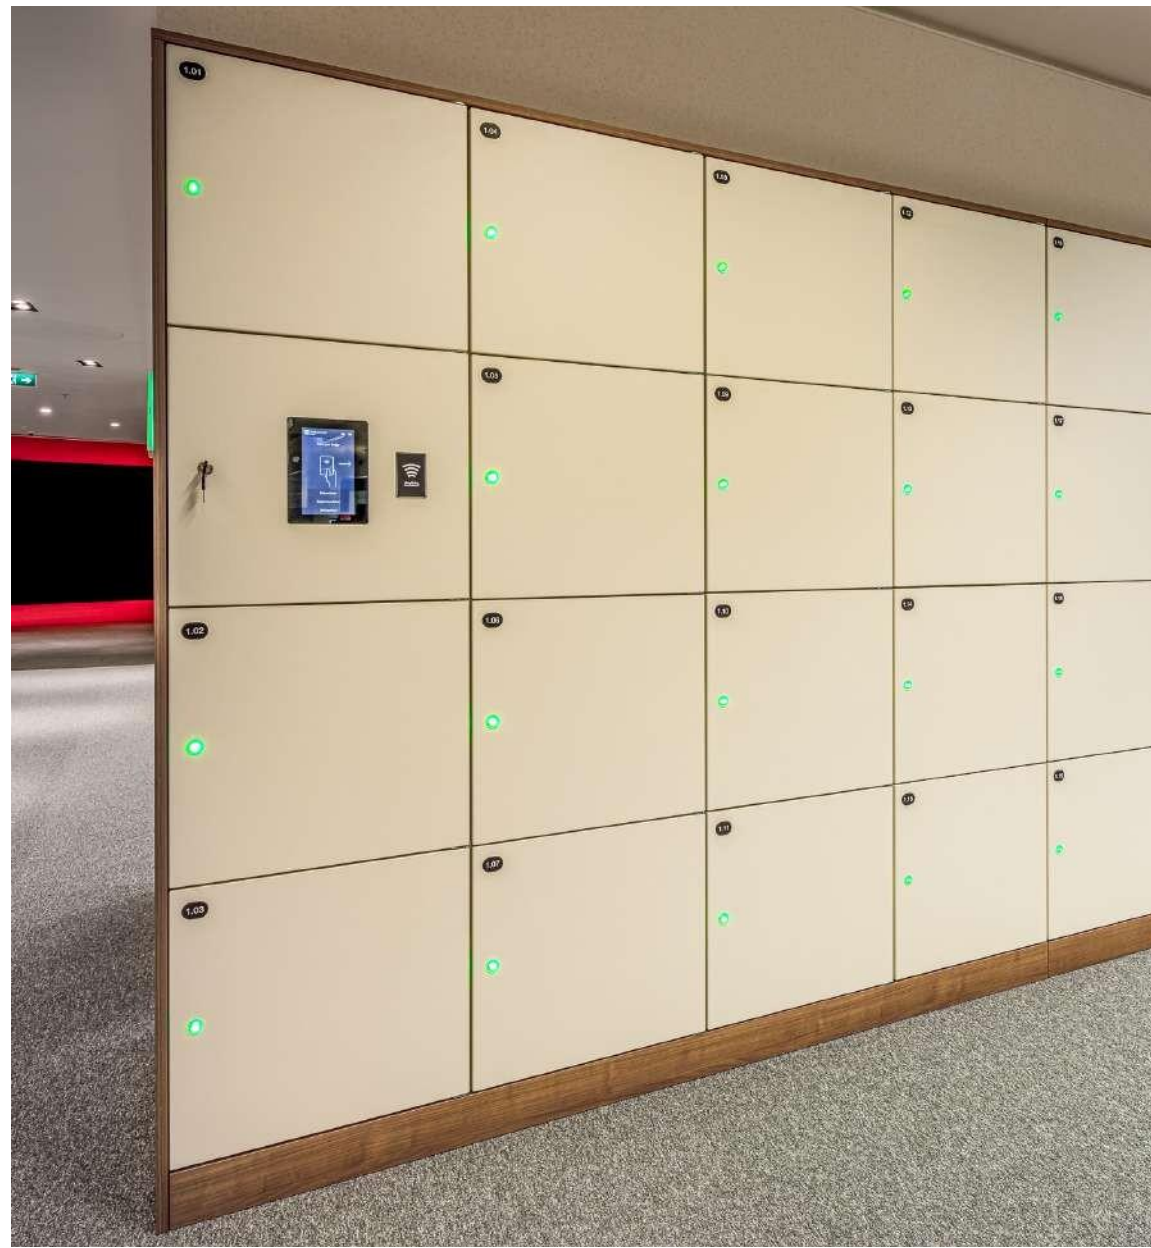

---

Bespoke storage solutions with the latest designs, materials and applications are the benefits of SMARTLOCKERS. Each locker bank can be customized as an extension of the space it is being placed in, making it a design element for exploring creativity.
